

# Enrollment form

## Record Status Dashboard (all records)

Displayed below is a table listing all existing records/responses and their status for every data collection instrument (and if longitudinal, for every event). You may click any of the colored buttons in the table to open a new tab/window in your browser to view that record on that particular data collection instrument. Please note that if your form-level user privileges are restricted for certain data collection instruments, you will only be able to view those instruments, and if you belong to a Data Access Group, you will only be able to view records that belong to your group.

**Legend for status icons:**

- Incomplete
- Unverified
- Complete
- Many statuses (mixed)
- Incomplete (no data saved) ?
- Partial Survey Response
- ✔ Completed Survey Response
- ● ● Many statuses (all same)

**Add / Edit Records**

You may view an existing record/response by selecting it from the drop-down lists below. To create a new record/response, click the button below.

Total records: 18

Choose an existing Study ID: -- select record --  
Add new record

Data Search

Choose a field to search (excludes multiple choice fields): All fields

Search query: Begin typing to search the project data, then click an item in the list to navigate to that record.

**NOTICE:**  
This project is currently in Development status. It should NOT be entered until the project has been moved to Production status.

To search for an existing patient, select "pat\_iname (Patient's Last Name)" here and then type patient's last name into search query field

## Add / Edit Records

You may view an existing record/response by selecting it from the drop-down lists below. To create a new record/response, click the button below.

Total records: 3

Choose an existing Study ID: -- select record --  
Add new record

Data Search

Choose a field to search (excludes multiple choice fields): pat\_iname (Patient's Last Name)

Search query: Begin typing to search the project data, then click an item in the list to navigate to that record.
