Cardiac Sciences
June 09, 2006

0800 - 1700H • Telus Centre • University of Alberta

All sessions except Medical Grand Rounds in the Telus Centre, University of Alberta

Scientific Session A

1000 - 1005H • Introduction
(Chairs: Dr. D. Johnstone and Dr. C. Norris)

1005 - 1020H • Abstract # 825
Ezekowitz JA, Chang WC, Westerhout CM, Armstrong PW
Acute Heart Failure: What Doesn’t Get Admitted May Come Back To Haunt You

1020 - 1035H • Abstract # 851
The Treatment-Risk Paradox in Coronary Disease: Exposing a Potential Pitfall of Administrative Data Analyses

1035 - 1050H • Abstract # 841
Kosman SL, Charrrois TL, Simpion SH, Tsuyuki RT
Proactive Pharmacist Involvement Improves Outcomes in Patients With Heart Failure: A Systematic Review

1050 - 1105H • Abstract # 838
Lehr EJ, Rayat GR, Coe JY, Korbut GS, Ross DB
Decellularization of vascular tissue attenuates the allogeneic immune response and does not lead to aneurysm formation

1105 - 1120H • Abstract # 830
Antenatal Pharmacist Involvement Improves Outcomes in Patients With Heart Failure: A Systematic Review

1120 - 1245H • Lunch and Poster Session

Plenary Session
(Chair: Dr. R. Tsuyuki)

1245 - 1300H • Recognition of Sponsors

1300 - 1330H • “Translational Research Centre in Edmonton: What ABACUS Can Do for You”
Dr. S.L. Archer and Ms. Bev Armstrong

1330 - 1400H • Recognition of Former Directors of Cardiology

Scientific Session B

1400 - 1405H • Introduction
(Chairs: Dr. G. Lopaschuk and Dr. J. Dyck)

1405 - 1420H • Abstract # 819
Folmes CDL, Sawicki G, Barr AJ, Masson G and Gary D.
Lopaschuk: Ischemia and reperfusion decreases the levels of a novel O-palmitoylated form of the E1β subunit of pyruvate dehydrogenase and triggers phosphorylation of two forms of E1β subunit of pyruvate dehydrogenase

1420 - 1435H • Abstract # 852
Hepatic Lipid Storage and Secretion Is Mediated by Fat/CD36: Implications for Diet-Induced Obesity and Type 2 Diabetes

1435 - 1450H • Abstract # 849
Binette TM, Pui O, Walker J, Mitchell L, & Bajzar L
Carboxypeptidase N Is Decreased In Newborn Plasma: Determination By Development Of A New Luminex® Platform Assay

1450 - 1520H • Coffee/Poster Session

Scientific Session C

1520 - 1525H • Introduction
(Chairs: Dr. D. Ross and Dr. W. Dafoe)

1525 - 1540H • Abstract # 814
Mandic S, Kim D, Tymchak W, Taylor D, Quinney HA, Riess K, & Hoykowsky M
Peripheral Vascular Endothelial Function Remains Impaired in Heart Transplant Recipients

1540 - 1555H • Abstract # 835
Phosphodiesterase-5 Is Expressed in the Hypertrophied (but not Normal) Human Heart: Direct Clinical Implications for Patients Treated with Sildenafil for Pulmonary Hypertension

1555 - 1610H • Abstract # 829
Makowsky MJ, Mcalister FA, Galbraith D, Tsuyuki RT, For the Approach Investigators
Peripheral Arterial Disease, Intensity of Cardiovascular Management, and Mortality Risk in Individuals with Coronary Artery Disease

1610 - 1625H • Abstract # 813
Early ST Resolution in STEMI: Spontaneous Reperfusion in Acute Myocardial Infarction

1625 - 1635H • Presentation of the Audrey Greenough-Norm Davies Award

1635 - 1640H • Presentation of Best Clinical and Best Basic Science Abstract Awards

1640 - 1645H • Closing Remarks
Dr. Stephen Archer

1645H • Wine and Cheese Reception
Dining Room, Telus Centre

All Are Welcome
