

PR_xOACT INSIDER

Newsletter

We're excited to introduce the PR_xOACT:

COMPLETE CARE *Challenge*

Wow! We've been so impressed by the incredible work everyone in the PR_xOACT Family is doing to advance pharmacist-led cardiovascular care - we are so proud to have you representing our profession. To help you continue to engage your patients, **please find enclosed patient brochures and information cards.**

In August & September, we're focusing on **quality** of care: **complete care plans and follow-up visits** to be recognized as **Heart Health Champions in our PR_xOACT Investigators Awards Ceremony** on September 18th! Through regular check-ins, your care leads to more meaningful improvements in CV outcomes.

MVP TEAM OF THE MONTH!

Helen & Calgary Co-Op Strathmore Team

have enrolled

28 patients into PR_xOACT!

"The team at Strathmore have been so supportive of this initiative since it was introduced! Our method is, we're casting a wide net. So we pretty much ask everyone. If they would like to participate, we'll book them for an appointment and check eligibility afterward. Maybe it's because we're more rural or the pharmacists have such good relationships with the patients here, but I have found patients to be very engaged and willing to help, particularly if you explain that the study aims to see the benefit pharmacists offer the healthcare system."

Well done, team!

About the PR_xOACT COMPLETE CARE Challenge

Be awarded a **PR_xOACT Heart Health Champion**
Lapel Pin recognizing **quality** CV care:

Bronze: 25 patients enrolled &
90% of care plans & follow-ups
